User: National Museum of Bosnia and Herzegovina in Sarajevo

Project value: \$625,000

Duration of the project: 2015 - 2018

Preventive Conservation of the Collections of National Museum of BiH in Sarajevo

AFCP Large Program

The main objective of the project is to support the reconstruction of the National Museum of Bosnia and Herzegovina in Sarajevo through the restoration and preventive conservation. All project activities are related to preventive conservation which aims to prevent, stop or slow down the deterioration of the museum collection by introducing high standards of care and creating optimal conditions for its preservation

Preventive Conservation of the Collections of National Museum of BiH in Sarajevo

AFCP Large Program

**Project activities will be implemented in stages, over a period of three years.
Main activities of the Project are as follows:**

- **Preventive conservation (Phase I and Phase II)**
- **Roof restoration on the buildings housing Departments for Archaeology and Natural Sciences and restoration of the concrete balustrade railing of the complex of National Museum**
- **Restoration of wall and ceiling paintings in the Department of Prehistory**
- **Partial restoration of the joinery**
